# Etiquette for Children

Our intensive Etiquette Training System has been specifically designed for teaching etiquette to children ages 7-13 years. It includes the use of interactive games, role-play and theory whilst keeping it fun. Our approach will help your children discover and focus on what is regarded as important social behaviour when interacting with their peers and families during the course of everyday living.

Methodologies used throughout the Etiquette Training Course will allow your children to learn about the diversity of different world cultures and how they also practice *good etiquette*, therefore learning to build positive relationships within our local communities, schools, and when out socially or within the home environment. We firmly believe that every child is an Individual who will greatly benefit from acquiring and practicing these important social skills which are automatically expected of them in modern day society.

By giving your children this valuable social foundation through etiquette classes, you will be allowing them the opportunity to improve their self-esteem. Foremost, learning *fine etiquette skills* will contribute to your children becoming positive, outstanding and beautiful young members of society, whilst learning other vitally important life skills too.

Upon completion of training in our etiquette classes, each child is presented with an elegant 'Niche Etiquette Children' Certificate of Achievement from our Etiquette School.

## Group Sessions

Niche Etiquette Children offer group etiquette classes, which are taught in the London area on weekends and during children's school holiday times. To find information on current group classes, visit our website: [www.nicheetiquettechildren.co.uk](http://www.nicheetiquettechildren.co.uk)

**Class Duration:** weekly 1.5 hour sessions, 13 consecutive weeks. At the last session, parents will be invited to attend a short presentation where children are awarded their Certificates of Achievement.

## Private Sessions

Private one-to-one classes are normally conducted in the comfort of the child's home environment. These classes can be arranged flexibly to meet the needs of the family's schedule and the child's needs.

**Class Duration:** 1.5 hour sessions over 13 weeks, depending on the child. Families can arrange for these sessions to take place in the home or at an alternative venue upon request.
